

Iqra Ahmad

Web Developer and Designer

Profile

I'm Iqra, a fresh Computer Science graduate with a passion for creating user-friendly and visually engaging websites. During my studies and internship at Leverify, I honed my front-end development skills, blending creativity with technical expertise to bring ideas to life. Proficient in HTML, CSS, and JavaScript, as well as design tools like Canva, I am excited to contribute to innovative projects while continuing to grow and evolve as a developer.

Work Experience

● July 2023- Sep 2023

Leverify, Civic Center, Bahria Town, RWP.

Junior Web Developer at Social Project Department.

- Designed and developed numerous websites using HTML, CSS and JavaScript.
- Developed Custom Websites to meet individual client needs.

● July 2022 - Aug 2022

Saba Aslam Educational and Welfare Trust, Gulrez, Rwp.

Volunteer Intern

- Work collaboratively with team members to develop strategies for successful completion of projects.
- Provide support and assistance with additional tasks and special Projects.

● 2024

Capital University of science and Technology

FYP

For my Final Year Project, I developed a Career Path Recommendation System to help users explore career options based on their skills and interests. I focused on creating a user-friendly interface and logic for personalized suggestions, which enhanced my web development skills and provided valuable hands-on experience in frontend development.
